

AFM Pricing Information

The pricing for any given healthcare service is an estimate. The actual charges for any healthcare service is dependent on the circumstances at the time the service is rendered. Pricing does not reflect the amount charged if a public or private third party will be paying for or reimbursing the healthcare provider or healthcare facility for any portion of the cost of service rendered.

If you are covered by health insurance, we strongly encourage you to consult with your health insurer to determine accurate information about your financial responsibility for a particular healthcare service provided by an AFM provider.

If you are not covered by health insurance, we strongly encourage you to contact our billing office at [\(970\) 224-1670](tel:9702241670) to discuss payment options prior to receiving a healthcare service from an AFM provider, as posted healthcare prices may not reflect the actual amount of your financial responsibility.

Description of Service	Billing Code	Price
New Patient, straightforward	99202	\$141
